

Professional (Hair) Diploma Course

Academy Introduction

Today's hairdressing is an advanced combination of scientific process and creative art, requiring a degree of expertise far greater than ever before.

The academy is for the stylist who wishes to release themselves from the confines of the everyday salon world, to enjoy the stimulating experience of working with others who share their enthusiasm for genuine creative feeling and expression.

Fashion is creativity, feeling and expression; makeup which we can express visually. Understanding how fashion, hair and techniques combine is all important for the creative hair artist.

Our programs have been carefully structured to extend your knowledge of current hair designs and the techniques involved - whether basic or advanced - which when combined together create high fashion looks.

We have secured our reputation as one of the best professional hairdressing schools for such education techniques and adapting them to learner's requirements.

Students can communicate their knowledge and share their experience through the demonstrations and practical sessions. The academy course includes haircutting, perming, coloring, relaxing, styling, treatments, extensions, braiding and video sessions.

28 Weeks Professional Diploma Course

A fully comprehensive course for persons with no prior hairdressing experience. Students must be over 16 years of age and be able to understand the English language. No special academic qualifications are required. It teaches the basic skills in practice and theory in all aspects of hairdressing, whereby the student can achieve the highest standard of efficiency and self confidence required for salon work.

The course is conducted primarily on a practical basis, with the addition of theory lectures to provide students with essential background knowledge. This course has been the foundation for many successful salon owners and stylists throughout the world.

Students are taught all aspects of hairdressing, which consist of cutting, perming, coloring, setting, long hair design, Trico logy, product orientation, salesmanship, salon management, professional ethics etc.

When hours and work targets are completed, the students will also be eligible to sit for an international exam and obtain an international certificate.
